# GEAR LIST DONATIONS

## MUSIC IS A POWERFUL TOOL FOR CREATIVITY AND HEALING

There is significant research that supports a focus on music-based activities for young people as a platform for positive individual and social change. We've seen it first hand and the research backs us up. Music is a big part of the lives of several staff, board members, and youth advocates at LYTE and we're ready to create a music space for our young people to explore --

WE NEED YOUR HELP TO CREATE THIS SPACE.
